

Session Fees

These charges cover the portrait session and showing of the originals.

Family portrait sessions anywhere in the Grand Rapids area, \$150
\$25 per hour travel charge for out of town location portraits .

Policy of Payment

A \$300 reservation fee, which applies toward the session fee and portrait order, is due when you reserve the date and time for your portrait session. Portrait orders are paid when the selections are made during the projection and ordering appointment. Minimum total order is \$300.

Viewing The Originals

Our portrait originals are presented using a computer projection system. This provides the advantage of being able to see the images displayed in magnified detail and in actual sizes. We will schedule an appointment for viewing and ordering the poses. It is very important for anyone who should be included in choosing the portraits to be present at that time.

Retouching and Artwork

Normal facial retouching includes removal of blemishes and softening of facial lines and wrinkles and is included in the cost of portraits. Extensive and special request retouching requires additional charges. Switching heads from one pose to another is charged at \$50 per change.

Portrait Finishes

Color Portraits

The finished color prints are bonded to photographic mount board and coated with semi-matte coating to protect the surface from moisture and humidity.

Black and White Prints

Any poses, which have been originally created in color, can be made as black and white or sepia toned prints. They are priced the same as the color prints.
